

CrystalCoat™ UV TC-3902

PREMIUM ABRASION RESISTANCE

- Ophthalmic UV-Cure Backside Coating
- Tintable & A/R Compatible
- Solvent-Free (100% Solids)

High Performance Chemistry

Founded in 1986, SDC Technologies, Inc. (SDC) is the recognized global leader in the manufacturing and distribution of premium proprietary UV-Cure abrasion resistant coatings. Leveraging the science of Sol-Gel Chemistry has led to the development of new technologies that transform the performance of coating. SDC's innovative coating solutions combine superior scratch resistance with exceptional product stability.

Proven Industry Reputation

With more than 31 years of product innovation, SDC's proprietary technologies are trusted by the world's most prestigious brands. SDC's coatings were designed to elevate your brand by enhancing the durability and quality of your products.

Patented Technology

CrystalCoat™ UV TC-3902 backside coating delivers excellent adhesion, and best-in-class abrasion resistance. Uniquely formulated for ophthalmic and other high performance applications where optical clarity and high durability are required. Capable of meeting your dynamic production needs, UV TC-3902 is a multi-purpose, UV cure coating compatible with anti-reflective (A/R) lens treatments, and suitable for spin coat application. TC-3902UV also provides excellent tintability and low yellowness on multiple substrates.

SDC's optically clear coatings are formulated to maximize the performance and durability of eyewear. This revolutionary multi-purpose coating is highly versatile, easily integrated as a straight "drop-in" with spin coating equipment.

CrystalCoat™ UV TC-3902

PRODUCT OVERVIEW

- Solvent-Free (100% solids-based), environmentally friendly
- Primerless, Spin Coat Application
- Compatible with anti-reflective (A/R) lens treatments
- UV-Cure

PERFORMANCE FEATURES

- Delivers best-in-class abrasion resistance
- Excellent optical clarity, tintability, product durability and stability
- Easy to use single coat system, meets demanding industry test requirements
- Primer-free adhesion to multiple substrates such as Polycarbonate, ADC (CR-39®, RAV 7®), Trivex®, Mid-Index Acrylic, MR-8™, MR-7™, MR-10™ & MR-174™

PRODUCTION BENEFITS

- Manufactured under stringent ISO 9001:2008 quality standards, enhancing coating performance
- Coating streamlines manufacturing, enhancing yields and profitability
- Access to SDC's global technical support team for your product validation & application requirements
